Nancy – I just spoke to Jonathan about Excelsior. We have a deliverable due date for the material we sent to Jim on 4/4 as **Ex. 4 - CBI** Jim expects it will take **Ex. 4 - CBI** to conduct his review and then Cadmus must do QA.

Jim is working on Badger Creek and Alon this week and won't be able to get to Excelsior to later this week at the earliest. Jim is working on many items right now and all items/TDMs are based on a schedule which is within the confines of the scope of work. We cannot expedite the Excelsior review without impacting other work.

Our response to Excelsior is that we are reviewing the material and we will be available to have a call on 3/27 to go over our findings. Jim should be on that call if he is available. I haven't confirmed it but we should make sure he can make it.

Nancy;

The purpose of this meeting is for our technical team to address any outstanding concerns the EPA might have on the last round of comment responses provided. If Jim has nothing he needs further explained and no additional information that he requires, then we can discuss finalizing the UIC application and moving on to drafting the permit.

Subject: Thursday meeting

Hi Rebecca,

Please provide an agenda for Thursday's (4/13) meeting so we can be prepared to discuss items. I also want to let you know that our contractor is not available for the conference call.

Thanks, Nancy
